

SUMMARY OF PERFORMANCE DATA 2005-2006

	Year ended	2005/06
Electricity		
Number of buildings in program with continuous statistics used for electricity calculations (m ²)	30 June 2006	27
Floor area (NLA) of buildings with continuous statistics used for electricity calculations (m ²)	30 June 2006	659,329
Metered electricity consumption (MWh)	31 March 2006	76,538
Natural Gas		
Number of buildings in program with continuous statistics used for natural gas calculations (m ²)	30 June 2006	27
Floor area (NLA) of buildings with continuous statistics used for natural gas calculations (m ²)	30 June 2006	676,413
Metered natural gas consumption (GJ)	31 March 2006	58,736
Water		
Number of buildings in program with continuous statistics used for water calculations (m ²)	30 June 2006	35
Floor area (NLA) of buildings with continuous statistics used for water calculations (m ²)	30 June 2006	803,806
Metered water consumption (kL)	31 March 2006	668,932
Total CO₂e emissions		93,314.00
CO ₂ e Electricity (tonnes)	31 March 2006	89,407.00
CO ₂ e Natural Gas (tonnes)	31 March 2006	3,907.00
